

João de Teixeira da Encarnação

Teaching Experience

2022 – 2023	Practical Astrodynamics, 3 ECTS, MSc TU Delft
2022 – 2023	Flight and Orbital Mechanics, 4 ECTS, BSc, TU Delft
2013 – 2016	Tutor for the Test, Analysis & Simulation project, TU Delft
2007 – 2011	Tutor for the Design Synthesis Exercise, TU Delft

Research Supervision

2022	MSc thesis Supervisor , TU Delft <i>Gravity gradient navigation</i>
2021	MSc thesis Supervisor , TU Delft <i>Laser propulsion for deployment and maintenance of CubeSat constellations</i> <i>Spatial extrapolation of Swarm gravity field solutions with Machine learning</i>
2020 – 2022	Postdoctoral advisor , CSR <i>uPGRADE – Miniaturized Prototype for GRavity field Assessment using Distributed Earth-orbiting assets</i>
2019	MSc thesis Co-supervisor , CSR <i>Bridging the GRACE gap – Validation of satellite gravity observations via glacial isostatic adjustment</i> , visiting student from TU Delft
2016	Bachelor of Engineering final project co-supervisor , TU Delft <i>Orbit Determination Of Leo Satellites Using Doppler-shift</i> , external student from the Aeronautical Engineering at Inholland University of Applied Sciences

Courses Prepared to Teach

Satellite Geodesy
Satellite Gravimetry
Astrodynamics
Earth Observation
Data Processing
Programming (any level/language)
